Part Number 4720

Unit UPC 039101006123

Case UPC 039101006130

Johnsen's Throttle Body and Air Intake Cleaners are formulated for modern fuel injected engines. This product will maintain the efficient operation of the air intake components: throttle valve body, butterfly and idle intake control valves. Cleans fuel injected air intakes opening and assemblies; cleans butterfly/throttle valve; helps improve hard starting and performance. Safe on metal and air intake plastic surfaces, 360° valve ensures product sprays in any position.
